

WHY OUTSOURCING the warehousing services

1

The investment in a warehouse is a financially considerable one and, besides, do not forget about the other related expenses: warehouse management system (WMS), expenses related to layout and equipment (racks, machines, IT infrastructure, supervising equipment, social areas, etc.), and mainly payroll.

SAVE MONEY AND FOCUS ON YOUR BUSINESS

ADAPT TO SEASONAL FLUCTUATIONS

Besides, when you choose to outsource this service, the warehousing costs vary proportionally to your needs.

2

3

INCREASE EFFICIENCY AND FLEXIBILITY

At the same time, you benefit from the flexibility of product management, no matter how different the stored products are (size, fragility, storage conditions etc.).

4

**YOU BENEFIT FROM A TRANSPARENT
AND HIGHLY EFFICIENT
MANAGEMENT SYSTEM (WMS):**

This system allows you to monitor stocks and orders in real time, providing full reports and information. At the same time, due to the technology used and to the implemented services, our system ensures the elimination of delivery and stock count errors.

5

ENSURE A GOOD STOCK ROTATION SPEED

The WMS solution allows for multiple stock management options, mainly FIFO (first in – first out) and FEFO (first expired – first out), thus ensuring an optimal and correct stock rotation.

Our insurance covers all the possible damages of the goods we store, at their real value.
